# THE DAILY CLARION.

MARRIED BY MISTAKE.—The Detroit Union of Thursday says: "Last evening Edward Thayer and Miss Helen F. Jelliman, attended by Mr. Austin Humphrey and Annie E. Crause, went to St. Paui's Church, the former to get married, and the latter to act as groomsman and bridesmaid. They all stood up before the altar, and the officiating clergyman, the Rev. Mr.

Dunn, supposing that both couples were to be married, requested the gentlemen to join hands with their respective ladies, which was done, and in a very short space of time the four were made two. The situation being fully realized by the latter couple, they concluded to accept what they could not very well help, and all adjourned to their boarding house quite well pleased with the result of the preacher's mistake."

A San Francisco paper says that Miss Alice Kingsbury, the actress, went to the Baptist Church in that city, and volunteered to teach a class in the Sunday-school. The offer was accepted, and the Superintendent complimented the lady on the manner in which she performed the duties. He, however, was lecturing to the chil dren on their duties, warned them to shun the theatre, for it was a "lighthouse of hell, and all actors and actresses were emissaries of the devil." Miss Kingsbury got up and stated that she was an actress and a member of the church, and in a short speech defended the profession in a manner that placed hors du combat the man who had opened the war.

The following are the reasons given by the Arkansas Legislature for rejecting the Constitutional amendment:

Arkansas does not know that the amendment was adopted by such a Congress as the Constitution provides for, one third of the States being unnever submitted to the President for | nourishes, enlarges and invigorates permasanction as the Constitution requires. Thirdly—The enormous power it seeks to give Congress would virtually abolish all local and domestic State laws. Fourthly-It seeks to force negro suffrage on the States as shown in the second section, while the fifth and third sections disfranchise the wisest and best citizens of the State, who having performed all the conditions of surrender and general amnesty, are entitled to restoration to the status they held before the war, and there are no reasons for beliving its adoption would secure restoration. The committee recommend a quiet and dignified course of endurance, rather than purchase restoration at a sacrifice of the principle of self-respect.

The best proof of the march of improvement, is that ladies now wear their bustles on the back of the head.

A young lady is charged with having said, that if a cart has nine fellows, it's a pity if a pretty girl like her can't

#### FASSMANN'S PATENT IRON TIES!! For Cotton Bales.

UNITED STATES PATENT, APRIL, 1865. IN FASSMAN'S PATENT IRON TIES, the holes at one end and fifteen at the other. The band has only to be drawn tight, the holes in the two ends

to be brought together, -the two hole end on topand the button inserted. One button will answer, but it is better to insert two.
With the Buckle Tie, one end tened to one section of the Buckle, the other end is inserted in the other section, and simply shoved through it under the other end as long as there is any slack. A bite on the buckle holds it securely to

The hoors are painted to prevent rust, and cut in lengths of 10, 101 and 1 feet. Ten feet are most generally used, but 104 and 11 are sometimes required for large bales. The buckles are fastened to the hoops, the buttons will be put up in small boxes. The Weight is About 10 Pounds to the Bale of

Cotton The advantages of iron over rope for baling cotton are now universally acknowledged. It holds the bale in a much smaller compass; is applied and fastened with as much facility, both in the country pressing and the re-compressing at the sea ports; sens immensely the risk from fire; is stronger, and its strength is not impaired by time and expo-sure as is that of rope. This last advantage has seed strikingly manifested during the war. Thou-bands of bales of Cotton have been lost by the rotting and breaking of Rope which could have been preserved if Iron hoops had been used. In addition to this, it can be furnished cheaper than Rope. The derangement of labor in the hemp growing states has reduced the supply of hemp to such an extent as to cause prices to rule unprecedently high: indeed a sufficiency for baling a moderate cotton crop, cannot be relied on at any price. I have arranged for the importation of a large quantity of the best English Iron, and have made arrangements with Messrs. Chambers & Latting for the sale and delivery of my Ties.

The undersigned, Fire Warden and Fire Inspector of the New Orleans Insurance Companies, are of opinion that the Iron Tie affords greater protection against loss in case of fire than the old style of baling J. YOUENES, Fi e Warden, JOHN ADAMS, Fire Inspector

ALFRED BELANGER, Ex-Chief Engineer, Fire Department. SHIP REFUGE, NEW ORLEANS, July 7, 1859.

H. Fassmann, Esq , Orleans Cotton Press: Sik: In January last I received from your Press 1089 bales of eotton, of which about 1000 were recompressed and bound with your new "Iron Tie." I can safely affirm that the cotton so bound was received in better order than it generally comes from the Presses, that it stowed better, and enabled the ship to carry more than on any previous voyage The cotton when discharged from the ship in Liverpool, was in better order than the rope bound cetton, it is highly preferable for a ground tier, as dampness from the ballast has no effect upon it, for it is well known by practical men that dampness will rot, the rope bound. I can confidently recommend rot the rope bound. I can confidently recommend your "Iron Tie," as I took this lot for an experiment

and carefully watched it both in loading and discharging. I am Sir, Yours Respectfully, JOHN HOWARD, Master.

CRANE, BREED & CO., NEW ORLEANS, LA., MANUFATURERS OF

Hearses and Metalic Burial Cases and Caskets. WOULD call the attention of undertakers, and the public, to their large variety of Hearses of the most approved patterns, and of the finest finish-unrivaled for elegance, utility

and durability.

We are constantly improving the style and construction of our Metallic Burial Cases. Our "New Plain Case," patented December 12, 1865, combines all the most recent and valuable improvements, and is more complete than any Burial case ever before invented. Our Metallic Burial Casket, in its simplicity of design, and its freedom from all associations of grief, is unsurpassed. It is almost entirely covered by the best polished plate glass. Its finish is that of the finest rosewood. The Ornamental Casket, with its heavy and elaboratelywrought emblematical ornaments, their bright silver contrasting with the dark polished ground work, is of striking and appropriate

Over wooden coffins, these Burial Cases and Cakets possess many important advantages. They protect from water, vermin, and other intrusion, answering for generations every necessary purpose of a vault. Removal from the original place of burial—should it ever be desired—can easily be accomplished. Bodies can be preserved for days or weeks, awaiting the arrival of absent friends. Removal to any part of the globe, at any season of the year, is entirely practicable. The surest safeguard is effected against contagious diseases. Casket, in reference to closing, and should be

strictly followed. Address, CRANE, BREED & CO., aug7-6md&w. 90 Magazine-st., N. O.
